WALTER G. CMILH, EDITOR.

PRIDAY, and I I AUGUST &

Judge Estee is welcome to Hawaii As an island resident may he be Estee perpetus.

Our impression that Judge Humphreys would sur thinks up is not abated by events.

It may be Hung Li Chang instead of Li Hung Chang if the old Viceroy is playing a double game.

Nobody ought to complain in Servia over the fact that King Alexander has married somebody who can bring him

seems to have been a sort of curtainmost remarkable wars of history. Judging from the warlike habits of

the Colombians it will probably be easier for the United States to run a canal in Nicaragua than in Panama.

The Republican party of Hawaii is favored with a visit from Mr. Harold M. Sewail, who hails from New York. It is always pleasant to receive visiting statesmen and we trust that Mr. Sewall will come again.

When "the people" find that municipalities will make new taxes which the landlords will recover from their pockets in rents, their anxiety to get "a voice in affairs" will subside. But not so the job-chasers. They can be trusted to keep on agitating.

It is three years the 20th of this month since Andree disappeared and now the story comes of the discovery of a wrecked balloon and the bodies of three n en on the shores of Hudson's bay. If the tale is true the Danish aeronauts crossed the pole. Quite likely they made copious notes of the event which nay yet be found.

Great Britain needs an army corps in China more than she does in South Africa and on that account, partly, is tiring of the Boer war. Krueger's men, encouraged by the British embarrassment, are as active as wildcats and may carry on a guerrilla fight indefinitely. Their chances seem better than at any time for two months past,

Gen. James H. Wilson, who will have a command in China, is familiar with the ground. He was there years ago as an engineer and wrote a book on the country which men like Hon. John W. Foster regard as the best one in its high class. As a soldier General Wilson got no fair chance in the Cuban war to show his qualities but his time may now be coming.

Wise may not know much about some Democratic principles but he is firmly grounded in the Jacksonian idea that every Democratic patriot should he can manage to trip the gas-tank statesman up. What alarms us about this affair is the fear that Wilcox may become a Republican. He has helped upset every other party.

Mr. McClanahan says that the Bryanites are in favor of 16 to 1 but will make the campaign on other issues of This reminds us osing. of the gentleman who was up for lous purposes. housebreaking but announced to judge and jury that he had decided to waive that question altogether and be tried for trespass. It was a matter of longstanding displeasure with him that judge and jury overruled him.

We ventured the opinion that John Wise could not tell the silver plank from a cabbage salad and it turns out that way. Somebody asked John at the Democratic reception to explain 16 to John said, as he vaulted away from the and her keel found to be almost broken subject, that he didn't believe Bryan It is considered almost a miracle that she could answer that question.

republic. That time differs from Greenwich six and one-half hours. It is the egraph lines, but in many parts of Mexico, especially in places not in telegraphic communication with the rest of the world, local time prevails.

Dinner of the Bar Association.

The Hawaiian Bar Association banquet will be given next Friday evening at which will be present Judge M. M. Estee, District Attorney J. C. Baird, the Justices of the Supreme Court, Judges of the Circuit Court, and the members of the bar. The dinner will probably be the largest ever given under the auspices of the Association, and will be an historical one in that the distinguished visitors who are about to open a United States court in

Hawali will be present. The committee in charge of the funcposed of Mr. Smith, S. M. Ballou and J. M. Monsarrat, met and arranged the preliminaries for the banquet.

Paul Neumann, the president of the Bar Association, will probably be given the agat of honor as toastmaster. From all that can be learned of the approaching event, it will be a brilliant

Porto Ricans had a celebration on July 15th in honor of St. Jago, the pat-ron saint of Spain Spanish flags were everywhere displayed and the enthusim for the mother country was great. Resentment over the colonial status was the cause.

KAPIOLANI HOME

One Girl is Dead and Five are in a Critical Condit on.

Typhold fever of a malignant type has broken out among the lumates of the Kapiolani Home for the chil rea of sepers, adjacent to the Kalihi receiving station. One girl of eight years died on To sday from the disease, and five otars are now in a critical condition.

The epidemic was brought to the at-tention of the physicians last week, when Enzabeth Maria Needham was taken ill and her discase pronounced typnold. She hagered for nine days and nied on July 31, and on Wed es-day was buried in the Cathode c.metery after a post-mortem examination had been held by Dr. Hoffma.n. The little girl was born at Kasaupapa, Molokal, of leprous parents, and has be a an inmate of the riome for some time The Peace Conference at The Hague

The Kapiolani Home is specially set The Kapiolani Home is specially as apart for the use of girls burn of leprous parents. It is under the supervision of the Government, and in charge of three Sisters of the order of St. Francis. A feace separates the Home from the receiving station for lepers. The latter are brought there

lepers. The latter are brought there from all islands of the group. The Hone is directly connected with the latter station through the office quarters.

Dr. Hoffmann says that hitherto no contagion of this kind has ever appeared among the inmates. Where the infection came from he is at a loss as yet to determine. The water supply, is the same used by other portions of Ho-nolulu, and it is doubted that the germs came through that source, as typhoid has not become prevalent in other places using the same water. He says the infection comes through milk or other liquids, and a thorough investi-gation will be made in this instance to support such a suspicton. There is no sewerage at the Home, and other phy-sicians believe that the infection arose from this cause.

from this cause.
On Wednesday "Jack" McVeigh thoroughly disinfected the premises, the clothing of the children and everything that would be likely to carry the infection. At the same time a corps of workers was sent to the old Kalihi de-tention camp hospital used during the plague epidemic and made the quarters ready to receive the inmates of the

This decision was reached by the Board of Health officers as the next best method to meet the contingency. Yesterday the sick and healthy ones were transferred to the hospital, where they will be detained until the criss is

passed. A trained nurse was sent out to the hospital, and will take charge of the sick ward. The Beard of Hea'th took up the matter at its meeting yesterday afternoon, and it was there stated that the sick-ness certainly arose from insanitary conditions in and around the station and Home. There were twenty-one girls, all Hawaiians, in the Home in charge of the three Sisters. The physicians do not believe that others wil

sicians do not believe that others will become infected, but every precaution will be taken to prevent the disease spreading to the receiving station near by.

Dr. Wood stated to the members of the Board of Health yesterday that the matter had first been called to his attention by Dr. Hoffmann, and he at once made a personal investigation of the Home and its condition. "I found sanitary conditions of which the Board has no reason to be proud," he said. "The water from the bathrooms drained to the ground under the house, and have an office. So Wise will run for to the ground under the house, and Congress in place of Wilcox, providing we found a veritable swamp existing he can manage to trip the gas-tank there. The house is old, and we dewe found a veritable swamp existing there. The house is old, and we decided that considering the conditions which had existed there it was little wonder that typhoid was prevalent. The only thing we felt that we could do was to remove the children at once, and this was done." According to Dr. Wood's theory the

infection did not arise from the water from the mains, but from the bilge wa-ter that collected under and around the house after having been used for var-

HERE'S A SCOUNDREL.

Hanola Uses His Wife as a Punching Bag and is Arrested.

Hanola, a native with pugilistic tendencies, started in training last evening, by using his wife as a punching bag, and was brought to the station house at the latter's request. As an exhibit of the manner in which Hanola, tion, have not yet decided where the dinner will be given. At W. O. Smith's office yesterday, the committee comwas cut in one or two places. The pair live at the Relief Camp on Punchbowl street. Yesterday evening they had a domestic quarrel, and to show that his was the better argument, Hanola struck out straight from shoulder and felled his wife to the

Then picking up a cigar box, he used it with force upon her head. The poor woman, who is blind, was unable the time being to help herself. Finally when Hanola tired of his amusement, his wife, Mahoe, secured assistance and had him arrested. Judge Wilcox Hopper, have met with much success, will adjust the marital differences of the pair this morning. the pair this morning.

Williams, Dimend & Co.'s circular sugar letter for July 24 shows that the market was advancing and quotations were strong on each rise. The latest statistics on sugar, coffee and rice, together with the movements of the sugar fleet in and out of San Francisco, furnished through the courtesy of Messrs. Schaefer & Co., of this city, are as follows:

SUGAR.-Prices in the local market were advanced July 3d and 2th, and again

SUGAR.—Prices in the local market were advanced July 3d and 2th, and again July 18th. For California, Oregon and Washington, latest prices as follows: Dominos, half barrels, 6.45c; boxes, 6.70c; Cubes (3), crushed and fine crushed, 6.20c; Powdered, 5.50c; Candy Granulated, 5.50c; Dry Granulated, fine, 5.70c; Confectioners' A, 5.70c; Magnolia A, 5.30c; Extra C, 5.20c; Golden C, 5.10c. Similar alvances were made for expert, the price today for Nevada, Idaho, Alaska and Hawalian Islands being 5.45c for Dry Granulated.

GOSSIP CONDENSED CHINESE COOLIES CROWD COPTIC EAGER FOR THE SIGHT OF THE CELESTIAL SHORES

EVERY steamer to the Orient is taking away from Honolulu a large number of the Chinese population of the city. The hegira is almost unprecedented. and, taking into consideration the peculiar state of affairs in the Flowery

Kingdom just at this time, it is, to say the least, significant.

Why is it that the steerage of all the boats of the trans-Pacific fleet are browded to the limit on their outward-bound voyage? Not so long ago John Ch'nnman was as anxious to get away from hig native land and try his fortune in trade against the Melican man as he seems now to get back there. Is he hastening homeward, lured by the hope of loot when it comes to the sacking of the rich foreign concessions, if it does come to that in the present war, or is he flying from the wrath of the foreign devil, appalled at the news of the devilish doings of his fellow-countrymen in doomed Peking?

fellow-countrymen in doomed Peking?

In Honolulu opinion is divided on the question. Yesterday the Chinese flocked to the Coptic's wharf by the hundred, frantically eager to get on board, panic-stricken almost, some thought, fearful of being left behind to suffer the vengeance of the Caucasian, which in his Orient-educated noddle he believed was sure to fall, after Peking. Others ascribed this haste to get away to a desire to be in the thick of the fun at Peking, a longing to get even for the years of pigtall pulling and contumely, to a lust for the blood and the pillage and the license which seems

Patriotism rules in the heart of the Chinese as well as in that of the Anglo-Saxon, and it is very probable that many of the departing Celestials are going home with the purpose of taking up arms for their country, to fight for its preservation, to help to fend off the threatened dismemberment, and with no thought for anything else, but as it happens that those who are leaving are of the most ignorant classes—the laboring man, the coule, the man who in verse of resistances. most ignorant classes—the laboring man, the coolie, the man who in years of residence in Hawaii as learned English enough only to make his wants known and

more.

The better class of Chinese made their views of the present crisis known at the recent mass meeting, wherein the Peking massacres were deplored, and resolutions were passed denouncing the Boxers and their barbarous treatment of the strangers within their gates.

And it is in the fact that a different kind of Chinese is leaving Hawaii that the comfort lies. The Islands can well spare a few hundreds, more or less, of these men, and whether they flee for fear of the wrath to come or go to take up arms against the allied forces, they will add but little strength to their countries. try's forces and their absence will be regretted by few Hawalians

MONEY FOR REFUGEES.

Goodly Sum Sent to Japan for Missionaries.
